Graduated June 2016 | *Santa Clara University*
Minors in Entrepreneurship and Chemistry

ENTREPRENEURSHIP

Spree

December 2014 - present | *Co-founder & CTO*
Lead product development of iPhone application from wireframes to beta testing, eventually managing contracted programmers hired to bring a functional initial version to Apple App Store.

WORK EXPERIENCE

SV Angel

March 2016 - present | *Intern*

Researched emerging trends in enterprise and consumer technologies, completed due diligence on early stage ventures pursuing seed investment, and listened to pitches given by startup founders.

City National Bank, Technology & Venture Capital Group

June 2015 - August 2015 | *Venture Capital Intern*

Developed and maintained internal financial projections for City National Bank portfolio companies with multimillion dollar term loans and debt facilities.

Santa Clara University Department of Chemistry

March 2014 - June 2015 | *Research Assistant*

Planned and executed research on the binding of single stranded DNA, called aptamers, to thrombospondin, a protein known to be present in ovarian cancer cells.
